Dear Renata,

I am from Ontario, Canada. I just graduated from the computer engineering program at the University of Toronto. I recently saw the Open letter from Dan Kegel's web site about the Microsoft settlement.

As a member of this industry, I think I need to say something. I strongly agree with the problems identified in Dan Kegel's analysis (on the Web at <http://www.kegel.com/remedy/remedy2.html>)

I also agree with the conclusion reached by that document, namely that the Proposed Final Judgment, as written, allows and encourages significant anticompetitive practices to continue, would delay the emergence of competing Windows-compatible operating systems, and is therefore not in the public interest. It should not be adopted without substantial revision to address these problems.

Sincerely,

Rayson Ho, Toronto, Canada; Recent Grad, U of Toronto.
